<u>A - Procedure to restore/recover deleted cases from eCourts Services Mobile App</u> <u>if the cases are available on any Android device or exported elsewhere.</u>

1. An advocate/A litigant can upgrade to the latest version, 2.0.

2. Open the app and search for any sample case in the app and save it to MyCases.

3. Export myCases.txt file using the export option of the app to their Google drive. This facility creates one file, myCases.txt (having sample case), on the Google drive of the advocate/litigant.
 4. On the Android device where cases are available, export the file to local storage. The file myCases.txt will be saved in the Downloads folder.

5. Copy the file myCases.txt from the Downloads folder of the Android device to any PC. From the PC, copy the file myCases.txt to their Google Drive.

6. While copying, it will ask to replace the existing file/ Keep both files. Please select 'Replace existing file'; the file will be copied to Google Drive. (Don't directly upload my cases.txt. the user should replace the existing/earlier mycases.txt file exported from the e-Courts services app)

7. Now the cases can be imported from Google Drive in e-Courts services Mobile App.

8. All the cases will be imported into the iOS/Andriod device. The user has to click the refresh button to get the latest status of all the cases.
